PRIVACY & SECURITY

WORK REIMAGINED

at home | at the office | on the move

PROTECT & STAY WELL

PRIVACY & SECURITY

No matter where you are working, you need to take care of your business data, assets and most importantly, yourself!

As well as protecting on-screen data from prying eyes, Privacy Screens are anti-glare with a blue light filter. This can help to prevent eye-strain and headaches and improve reading comfort.

* Prolonged exposure to blue light, such as the light from your device screen, can have a harmful effect on your health. Targus Privacy Screens include a blue light filter for ease and wellbeing when using your technology devices for extended periods.
