Universal 3-in-1 2.0 Keyed Dual Lock Head Laptop Lock

Part Number: K63392WW (Standard Keyed) | UPC Code: 0 85896 01101 9
Part Number: K63393M (Master Keyed) | UPC Code: 0 85896 01111 8

Simplified two-device security.

Securing a mixed fleet of laptops with different lock slots alongside an additional peripheral such as a monitor or docking station can present a complex challenge. Multiple slot types often require multiple locks or swappable tips - adding cost, risking lost pieces and may compromise security.

The Universal 3-in-1 2.0 Keyed Dual Lock Head Laptop Lock simplifies this challenge with a true one-tip design that fits standard, nano and wedge-shaped slots, together with a dual lock head that secures two devices at once.

Built on Kensington's 5mm Keying System with Hidden Pin™ anti-pick technology, it delivers strong, consistent protection while reducing inventory, deployment time and complexity.

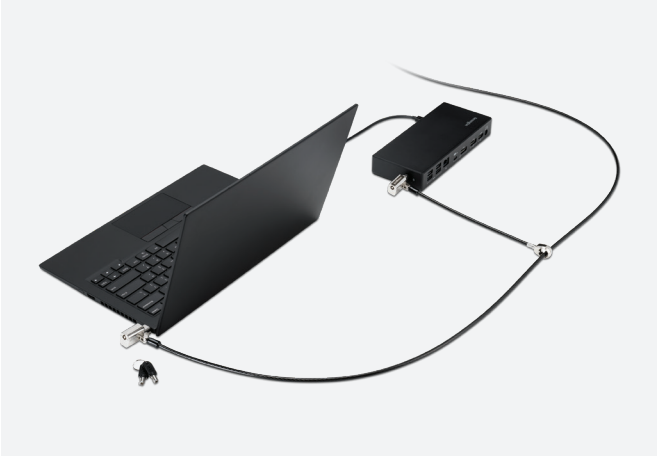

- Secures two devices with one keyed solution
- Single-tip lock heads fit standard, nano and wedge-shaped security slots
- 360° rotatable lock heads enables one-handed locking from any angle without blocking ports
- Proprietary cleat locks firmly grip inside each security slot
- Main Cable: 1.8m (6') cut-resistant carbon steel cable with plastic sheathing
- Extension Cable: 0.2m (8") cut-resistant carbon steel cable with plastic sheathing
- 5mm Keying System compatible across all of Kensington's latest locks
- Patented anti-pick Hidden Pin™ Technology
- Verified and tested for strength, physical endurance and mechanical resilience
- Free registration program for secure replacement of lost keys
- 5-year limited warranty

Product Sheet

Universal 3-in-1 2.0 Keyed Dual Lock Head Laptop Lock

Part Number: K63392WW (Standard Keyed) | UPC Code: 0 85896 01101 9
Part Number: K63393M (Master Keyed) | UPC Code: 0 85896 01111 8

Dual Lock Heads

Secures two devices with a single keyed solution - ideal for protecting a laptop together with a monitor or docking station. Helps simplify key management and reduce cable clutter.

Fits Any Lock Slot

Innovative single-tip lock heads fit standard, nano and wedge-shaped security slots without the need to change lock tip heads, offering compatibility with almost any laptop regardless of brand or generation.

One-Handed Locking and No Port Blocking

Each 360° rotating lock head allows you to attach and secure the lock with one hand from any angle - even in tight spaces - without blocking adjacent ports.

Proprietary Cleat Locking

Engineered as an alternative to traditional scissor-style lock tips, each proprietary cleat lock firmly grips inside of each security slot. This internal cleat design ensures each lock remains firmly engaged.

Universal 3-in-1 2.0 Keyed Dual Lock Head Laptop Lock

Part Number: K63392WW (Standard Keyed) | UPC Code: 0 85896 01101 9
Part Number: K63393M (Master Keyed) | UPC Code: 0 85896 01111 8

Carbon Steel Cable

1.8m main cable with 0.2m extension offers ample length for anchoring laptop and peripherals to desks, tables and other fixed structures. Resists cutting attempts and features a plastic sheath that protects desktop surfaces.

5mm Keying System with Patented Hidden Pin™ Technology

Our 5mm Keying System is compatible with all recent Kensington locks, simplifying key management across your organisation. Patented anti-pick Hidden Pin™ technology offers administrators convenient security that resists tampering and ensures peace of mind.

Verified & Tested

Each Kensington lock is precision-engineered to meet or exceed rigorous industry standards for strength, physical endurance and mechanical resilience.

Register & Retrieve™

Kensington's online key registration program allows for quick, secure and easy key replacement if it ever gets lost or stolen.

5-Year Limited Warranty

Built to last and warrantied by Kensington, the inventor of the laptop lock.
